

WES COOPER

Wes Cooper is the Laboratory Manager and Senior Research Scientist at the Asphalt Institute in Lexington, Kentucky. A veteran in asphalt testing, he has over 18 years of experience in asphalt science and education. He is a member of AAPT, ASCE, ASTM and the Society of Rheology and is currently a contributor to several research projects, including AIF 22-03 and NCHRP 9-63.

Wes also serves as the staff liaison for the Asphalt Institute Roofing Technical Advisory Committee. As an educator, he serves as an instructor in laboratory-based rheology courses at the Institute and is a regular contributor to Asphalt Magazine.
