

David Webb, Ph.D.

Dr. David Webb is a research civil engineer in the Applied Economics Office at the National Institute of Standards and Technology (NIST). He received his Ph.D. in reliability engineering, as well as a master's and bachelor's degree in civil and environmental engineering, from the University of Maryland. At NIST, his work primarily consists of statistical and econometric analysis covering several topics including; sustainability, community resilience, and disaster studies related to wildland-urban interface fires, earthquakes and hurricanes.
