

## Dennis Wilson Bio

*Last Updated: 5/17/2020*

*Dennis is the Vice President of Sustainability, Environment, Health & Safety for Saint-Gobain in North America, the parent company of CertainTeed. Dennis joined CertainTeed/Saint-Gobain in 2007 and has since worked in a variety of operational EHS, product stewardship and sustainability roles. Dennis' team manages Saint-Gobain North America's environmental, health and safety programs as well as process & product sustainability efforts including waste, water, energy, greenhouse gas reduction and product life cycle assessments.*

*Dennis holds a BS in Applied Environmental Health & Safety Sciences (Safety Sciences) from Indiana University of Pennsylvania, an MS in Environmental Protection & Safety Management from St. Joseph's University, an MBA from LaSalle University, and a certificate in Sustainable Engineering from Villanova University. Prior to his time at CertainTeed/Saint-Gobain, Dennis held a variety of operations, quality, and regulatory positions in the pharmaceutical, and paper and plastics industries. Dennis is a member of the United States Green Building Council (USGBC) LEED Materials and Resources Technical Advisory Group (MR TAG) and the Health Product Declaration Collaborative (HPDC) Board of Directors.*
