

Jessica Ferko is the Planning and Policy Program Manager for the Air Pollution Control Division of the Colorado Department of Public Health and Environment. With a background in Chemistry and Chemical Engineering, she began her career in consulting, leading teams in air quality permitting and dispersion modeling work. Following this, she worked for the Regional Air Quality Council as the Planning Director, conducting specialized work in air quality planning, control strategy evaluation, and stakeholder engagement. In her current role with the Division, Jessica leads the Planning and Policy Program in their efforts developing regulations, programs, and formal Plans to improve air quality in Colorado. Outside of work, Jessica enjoys mountain biking, rock climbing, and trying to make a dent in the stack of “to be read” books on her nightstand.
