

Executive Biography

A 32 Year Industry Professional Providing Environmentally Sound and Sustainable Solutions to Industrial and Commercial Businesses for Hazardous and Non-Hazardous Waste Materials.

Randy Gregory resides in Rock Hill, South Carolina and is the Co-Processing Sales Manager for Geocycle East Region. He has a solid background working with companies that aim to maintain safe, secure, and environmentally-sound solutions for commercial and industrial waste streams; hazardous and non-hazardous.

Randy joined Geocycle at their inception in 2003 and promotes Geocycle's environmental service of pre-processing industrial waste and by-products into an alternative engineered fuel. The company's East Region facilities each have their own market segment they serve and are located in Dorchester SC, Holly Hill SC, Alpena MI, Coleman MI, Muskegon MI, St. Louis MO, Hagerstown MD, Cumberland MD, Northampton PA and Ravena NY. Randy shares Geocycle's commitment to a Zero-Waste future and looks forward to further exploration of how Geocycle can assist ARMA with sustainability goals.

Born and raised in Hamilton Ohio, Randy received his education and played Varsity baseball at Eastern Michigan and Winthrop Universities. Randy and his wife Karen have two grown children and four grandchildren. They enjoy their growing family, the outdoors and the South Carolina beaches.
