

## SME Bios for Webinars

### Susan Sanchez:

Susan Sanchez is an accomplished Environmental Scientist with over 15 years of executive experience in sustainability, specializing in lifecycle assessment (LCA), ESG, health & safety, and corporate sustainability. She currently leads LCA and Carbon Product Sustainability at UL Solutions. Her previous leadership roles span major organizations including Amazon MGM Studios, The Walt Disney Company, and Merck KGaA, as well as public sector and biotech startups.

Susan brings deep expertise in building LCA and carbon models across diverse sectors such as transportation fuels, building materials, consumer products, and media production. She holds a B.A. in Biology and Environmental Science from UC Santa Cruz, pursued graduate studies at Imperial College London, and is certified in Safety and Health Management (CSHM) and GRI reporting.
