

Terrell Garrett, CEO/Founder, GreenWay Recycling

Terrell Garrett started out with a small garbage hauling business in the late 1990's but sold it to create GreenWay in NW Portland. Initially, GreenWay reloaded yard debris but by 2004 transferred Construction and Demolition and installed a sort line in 2008. The company underwent a \$7 million rebuild of its facility over the last few years, producing the highest recovery rates in the region. GreenWay was awarded the Construction and Demolition Recycling Association's 2024 Recycler of the Year.
