

Ms. Disha Gadre is the Manager of Consulting Services for Trinity's Arizona office based in Phoenix. She specializes in providing environmental consulting services for clients in the mining, cement, aggregates, steel, petroleum refining, and other industries. With an in-depth knowledge of the air permitting and compliance process, she assists industrial clients for addressing air permitting, compliance, and dispersion modeling requirements associated with capital projects and enforcement negotiations.

She is also an odor assessor and has provided odor compliance services to clients including those in the asphalt industry. She has previously worked for Walt Disney Imagineering on the Sustainable Design and Engineering Team performing Life Cycle Assessments (LCAs).

Disha received her Master's in Environmental Engineering from North Carolina State University. She earned her Bachelor's Degree in Chemical Engineering from the University of Mumbai. She is also a Certified Manager (CM) and the instructor of Trinity's training courses on Air Quality Permitting in Arizona and the Clean Air Act for the Mining Industry as well as the Rock Products Industry. Disha is also the Chairperson for the Environmental Professionals of Arizona's (EPAZ) Annual Conference and serves on the EPAZ Board.
