

Karyn Schmidt

Karyn Schmidt is senior director, regulatory & scientific affairs at the American Chemistry Council. She has been working on TSCA issues since 2000 and all aspects of implementation of the 2016 Lautenberg Amendments to TSCA since its passage, including the Inventory Reset, nomenclature and equivalency issues, CBI, prioritization of chemicals for risk evaluation, scoping and performing risk evaluations, risk management, citizen petitions, TSCA fees, reporting and data collection, and compliance, enforcement, and litigation. Karyn is currently the TSCA risk management lead at ACC.
